Disclaimer

MLC Limited (ABN 90 000 000 402 AFSL 230694) operates MLC Life Insurance and uses the MLC brand under licence. MLC Limited is part of the Nippon Life Insurance Group and not a part of the Insignia Financial Group.

Whereas care has been taken at the time of preparation of this communication, we cannot guarantee that the data and content is free from errors or omissions as we rely on and apply information provided to us by external investment managers. This information does not take into account your objectives, financial situation and needs. Please consider the appropriateness of the information having regard to your personal circumstances.

Please refer to your Customer Information Brochure (CIB) and/or policy document and updates for information about your product. We recommend investors obtain financial advice specific to their situation before making any financial investment or insurance decisions. MLC Limited does not accept responsibility or liability for the use or distribution of information in this communication.

Returns for periods 1 year or greater are calculated on an annualised basis. All returns are calculated using end of month redemption prices assuming all distributions are reinvested and are net of management fees which include administration fees, issuer fees and investment fees, charges, expenses and prior to tax considerations, and do not allow for initial entry fees. The returns outlined within represent historical performance only. The value of an investment may rise or fall with changes in the market. Returns are calculated in accordance with Financial Services Council (FSC) Standard No 6. Past performance is not a reliable indicator of future performance.

About MLC Life Insurance

MLC Life Insurance

At MLC Life Insurance, we're committed to protecting our customers by providing care and support through life's journey. It's what drives our ambition to be Australia's leading and most trusted life insurer.

Since 1886, we've continued to be guided by our founder, James Garvan's promise to provide Australians with the enduring security and protection of life insurance. It's a promise we take to heart as we provide flexible, affordable, and innovative insurance solutions to the lives we protect.

We've partnered with one of the world's leading life insurers, Nippon Life Insurance Group.

Nippon Life, founded in 1889 and based in Osaka, Japan, operates life insurance and asset management businesses in the Asia-Pacific region and globally. They are Japan's largest private asset owner with 15 million customers.

In October 2016, Nippon Life acquired 80% of MLC Limited from National Australia Bank (who retain a 20% holding). This helped form the stand-alone life insurance brand you know as MLC Life Insurance today.

Investment Strategy

Wholesale Investment Option: Antares Enhanced Cash Trust

MLCL Investment options

- Cash
- Guaranteed Cash

Investment objective and strategy

The aim of the Trust is to actively manage a portfolio of Australian money market and fixed income securities (in a risk-controlled manner) to generate a return over a full market cycle which exceeds that delivered by the Australian bank bill rate.

Invests primarily in Australian bonds, cash and short-term securities either by way of physical securities or derivatives.

- Derivatives include bond, bank bill futures contracts and interest rate swaps as well as credit default swap contracts which may be used to hedge the credit exposure to some corporate bonds.
- Uses a combination of diversified investment strategies to generate excess returns and manage risk for the Trust. These strategies include liquidity management, duration positioning, yield curve positioning, sector rotation, and credit selection (outlined below).
- Targets duration between 0 and 6 months and credit exposure in the range of securities rated A- through to AAA.
- The Trust will not use leverage or short selling strategies.
- May use other strategies, as determined appropriate, with regard to achieving the Trust's objectives

Benchmark

Aims to outperform the Bloomberg AusBond Bank Bill Index by 25 basis points per annum (after fees) over rolling 12-month periods.

Investment Strategy

Wholesale Investment Option: MLC Wholesale Australian Share Fund

MLCL Investment options Investment objective and strategy

- Cash
- Guaranteed Cash

Aims to provide investors relatively steady positive returns over the term of the investment. The fund is conservatively managed and carries the guarantee of return of both capital and interest once allocated, net of switches and withdrawals.

We aim to achieve this by investing a high proportion of the fund in fixed another interest-bearing securities with smaller amounts invested in property and shares. Reserves are maintained and applied for the purpose of smoothing future returns to investors.
